<sup>1</sup> A metropolitan statistical area is defined as an urbanized area of 50,000 or more population. The "outside metropolitan statistical areas" category includes both micropolitan statistical areas (10,000 - 50,000 population) and territory outside of metropolitan and micropolitan statistical areas.

Note: Numbers in thousands. Universe is the civilian noninstitutionalized population of the United States, plus armed forces living off post or with their families on post.
